## PROGRAM SUMMARY

Deepen your expertise with cross-module configuration, integration scenarios and advanced industry case studies.

The ERP Advanced Consultant Certification is a 45-day program for consultants who want to work across modules rather than within a single domain. You'll learn how finance, procurement, sales, manufacturing and logistics integrate into one connected system.

With advanced configuration, integration scenarios and richer industry case studies, this program prepares you for higher-value consulting engagements and faster career growth.

## WHO SHOULD ENROLL

- > Functional consultants ready to expand their scope
- > Professionals targeting multi-module projects
- > Consultants who want higher billing potential
- > Those aiming for senior consultant roles next

## WHAT YOU WILL LEARN

- > Cross-module configuration across two or more domains
- > Integration points between finance, supply chain and production
- > Advanced master data and process design
- > Complex industry case studies and edge cases
- > Solution documentation and client communication

## OUTCOMES

- > Configure integrated, cross-module ERP scenarios

- > Deliver advanced live projects
- > Earn the advanced consultant certification

## CAREER IMPACT

Positions you for multi-module consulting engagements and is the natural bridge to Senior Consultant and Solution Architect tracks.

## FREQUENTLY ASKED QUESTIONS

- **How is this different from the Functional Certification?**

The Functional Certification focuses on one module in depth; the Advanced Consultant Certification adds cross-module configuration and integration, preparing you to work across multiple domains.

- **Do I need the Functional Certification first?**

It's recommended but not mandatory. If you already have relevant ERP experience, our mentors can assess your readiness for the advanced track directly.
