PROGRAM SUMMARY

Specialize in a manufacturing vertical with deep domain workflows, compliance and industry-specific best practices.

The ERP Industry Specialist Certification is a 90-day program for consultants who want deep, vertical expertise. Instead of generic ERP skills, you master the specific workflows, compliance requirements and best practices of a chosen manufacturing industry.

Industry specialists are highly valued because they speak the client's language and shorten implementations. This program combines functional depth with sector knowledge across automotive, pharma, food, engineering and more.

FREQUENTLY ASKED QUESTIONS

- **Which industries can I specialize in?**

Verticals include automotive, pharmaceuticals, food & beverage, engineering & fabrication, textiles, chemicals and more — aligned to the industries PMTechERP serves.

- **Is this better than a general certification?**

For consultants targeting a specific sector, yes — industry specialists are scarcer and command higher rates because they shorten implementations and reduce risk.
