ERP Projects Training & Certification

Plan and control projects end to end — mapped to SAP PS.

Duration 30 Days · Level Functional Certification · SAP equivalent SAP PS ·
PMTechERP Certified Project Consultant

www.pmtecherp.com

Live projects · Industry certification · 100% placement support · SAP-mapped curriculum

COURSE OVERVIEW

The ERP Projects certification trains you to manage project-based businesses — work breakdown structures, planning, cost control, resource planning and project billing.

Project Systems skills are valued in engineering, construction, EPC and project manufacturing companies. This program builds the planning and cost-control expertise to lead project delivery on ERP.

30 Days

Duration

₹25,000 + 18% GST

HOW IT COMPARES TO SAP PS

This course maps directly to SAP PS (Project Systems). You learn the same WBS, planning, cost-control and billing concepts and apply them in live PMTechERP projects.

PROGRAM HIGHLIGHTS

- **SAP PS-mapped curriculum**

Learn the same functional scope and terminology that enterprises use, so your skills transfer directly to real implementations.

- **Hands-on, live projects**

Configure and run realistic business scenarios end to end — not just theory — to build genuine consultant-grade experience.

- **PMTechERP Certified Project Consultant**

Earn an industry-recognized certification that validates your expertise to employers and clients.

- **100% placement support**

Resume preparation, interview coaching and active referrals to hiring partners until you are placed.

DETAILED SYLLABUS

Module 01: Project Structures

- > Project definition & profiles
- > Work breakdown structure (WBS)
- > Networks, activities & relationships
- > Milestones & deliverables
- > Standard templates & structures

Module 02: Planning & Scheduling

- > Date planning & scheduling

- > Resource & capacity planning
- > Cost & revenue planning
- > Budgeting & availability control
- > Material planning in projects

Module 03: Procurement & Execution

- > Material & service procurement
- > Confirmations & progress tracking
- > Material staging & reservations
- > Goods & services receipt
- > Subcontracting in projects

Module 04: Cost Control

- > Actual cost capture & postings
- > Commitment management
- > Variance & earned value analysis
- > Overhead, allocations & settlement
- > Period-end processing

Module 05: Billing & Revenue

- > Milestone & resource-related billing
- > Results analysis & WIP
- > Revenue recognition
- > Down-payments & retentions
- > Project settlement

Module 06: Monitoring & Reporting

- > Project dashboards & status
- > Earned value & progress reporting
- > Project KPIs & profitability
- > Integration with finance & materials
- > Portfolio overview basics

OUTCOMES

- > Build work breakdown structures and project plans
- > Plan and control project costs and budgets

- > Schedule resources and track utilization
- > Run milestone and progress billing
- > Report on project profitability and status

LIVE PROJECTS

- > Build a work breakdown structure and project plan
- > Configure project cost control and budgeting
- > Set up milestone and progress billing

CAREER ROLES

Project Consultant

Project Planner

PMO Analyst

SUCCESS STORIES

- > Delivering an EPC project on budget with PS cost control
- > Improving project profitability visibility for an engineering firm

FREQUENTLY ASKED QUESTIONS

• Is this course equivalent to SAP PS?

Yes — it mirrors SAP PS (Project Systems), covering WBS, planning, cost control and project billing, with hands-on PMTechERP configuration.

• Which industries hire Project Systems consultants?

Engineering, construction, EPC, capital goods and project-based manufacturing companies actively recruit certified project consultants.
