ERP Warehouse Management Training & Certification

Optimize warehouse operations mapped to SAP WM and EWM.

Duration 30 Days · Level Functional Certification · SAP equivalent SAP WM / EWM ·
PMTechERP Certified Warehouse Consultant

www.pmtecherp.com

Live projects · Industry certification · 100% placement support · SAP-mapped curriculum

COURSE OVERVIEW

The ERP Warehouse Management certification trains you to design and run efficient warehouses — bin and storage management, putaway, picking, packing and barcode/RFID-driven operations.

As supply chains digitize, warehouse and logistics consultants are in strong demand. This program builds the configuration and operations skills to manage modern, high-throughput warehouses.

30 Days

Duration

₹25,000 + 18% GST

HOW IT COMPARES TO SAP SAP WM / EWM

This course maps directly to SAP WM and EWM (Warehouse Management / Extended Warehouse Management). You learn the same storage, picking and packing concepts with hands-on PMTechERP configuration.

PROGRAM HIGHLIGHTS

- **SAP SAP WM / EWM-mapped curriculum**

Learn the same functional scope and terminology that enterprises use, so your skills transfer directly to real implementations.

- **Hands-on, live projects**

Configure and run realistic business scenarios end to end — not just theory — to build genuine consultant-grade experience.

- **PMTechERP Certified Warehouse Consultant**

Earn an industry-recognized certification that validates your expertise to employers and clients.

- **100% placement support**

Resume preparation, interview coaching and active referrals to hiring partners until you are placed.

DETAILED SYLLABUS

Module 01: Warehouse Structure & Master Data

- › Warehouse, storage types & sections
- › Storage bins & bin types
- › Material & warehouse-level data
- › Activity areas & staging zones
- › Number ranges & control

Module 02: Inbound & Putaway

- › Inbound deliveries & expected receipts

- › Putaway strategies & rules
- › Goods receipt & transfer orders
- › Cross-docking basics
- › Quality inspection in the warehouse

Module 03: Picking & Outbound

- › Outbound deliveries & wave picking
- › Picking strategies & optimization
- › Replenishment of fixed bins
- › Goods issue & confirmation
- › Packing & handling units

Module 04: Internal Movements & Inventory

- › Stock transfers & posting changes
- › Physical inventory in warehouse
- › Stock determination & removal
- › Hazardous & batch-managed stock
- › Bin status & blocking

Module 05: Automation & Technology

- › Barcode scanning & RF devices
- › RFID concepts & tagging
- › Mobile data entry & confirmations
- › Material flow system basics
- › Integration with conveyors/AS-RS

Module 06: Performance & Optimization

- › Slotting & bin optimization
- › Labor & throughput KPIs
- › Warehouse utilization analysis
- › Reporting & dashboards
- › Integration with inventory & sales

OUTCOMES

- › Design warehouse and storage bin structures
- › Configure putaway and picking strategies

- > Run packing and dispatch operations
- > Integrate barcode and RFID scanning
- > Optimize warehouse throughput and accuracy

LIVE PROJECTS

- > Design a bin and storage structure for a distribution center
- > Configure putaway and picking strategies
- > Integrate barcode scanning for goods movement

CAREER ROLES

Warehouse Consultant

Logistics Manager

Supply Chain Analyst

SUCCESS STORIES

- > Improving picking accuracy with optimized bin strategies
- > Scaling warehouse throughput for a growing e-commerce brand

FREQUENTLY ASKED QUESTIONS

• Does this course cover both SAP WM and EWM?

Yes — it maps to both SAP WM and the newer SAP EWM, covering bin management, putaway, picking, packing and barcode/RFID operations through hands-on PMTechERP projects.

• What roles does the Warehouse certification lead to?

Graduates move into Warehouse Consultant, Logistics Manager and Supply Chain Analyst roles.
